About

Full Stack Developer (MCA, CGPA 8.50) building production-grade MERN applications — real-time collaborative tools, AI-powered platforms, and assessment systems. Strong in React, Next.js, Node.js, MongoDB, PostgreSQL, and LLM integrations.

Education

Master of Computer Applications (MCA) 2024 – 2026
Galgotias University, Greater Noida — **CGPA: 8.50**

Bachelor of Science (B.Sc.) 2021 – 2024
CSJM University, Kanpur — **CGPA: 7.71**

Technical Skills

Languages	TypeScript, JavaScript, Python
Frontend	Next.js, React.js, Tailwind CSS, Framer Motion, Shadcn/UI
Backend & APIs	Node.js, Express.js, REST APIs, WebSockets, JWT, Firebase Auth
Database	MongoDB, PostgreSQL, MySQL, Prisma, Docker, Vercel, Git
AI & Testing	LLM APIs, Judge0, Scikit-learn, Postman

Projects

AtellixEngine — AI-Powered Coding Assessment & Collaboration Platform 2026
Technologies: Next.js, TypeScript, Node.js, WebSockets, Prisma, PostgreSQL, Docker, Judge0 API

- Architected a full-stack platform combining real-time collaborative code editing (WebSockets) with automated assessment — problem sets, role-based access (candidate/recruiter/admin), and scoring leaderboards.
- Integrated Judge0 sandboxed execution inside Docker containers for secure multi-language compile-and-run of user submissions.
- Built an AI-assisted debugging module providing real-time diagnostics, error explanations, and code optimization hints.
- Designed Prisma/PostgreSQL schema for attempts, submissions, and evaluation tracking across multi-user sessions.

AtellixCareer — AI Career Navigator 2026
Technologies: Next.js, React, Node.js, MongoDB, Tailwind CSS, LLM APIs

- Built an AI platform that parses resumes and maps skill gaps against target job roles using LLM integration.
- Engineered automated week-by-week personalized learning paths and project roadmaps based on gap analysis.
- Delivered a real-time dashboard tracking skill mastery and portfolio milestones.

AtellixUI — Open-Source Component Library 2026
Technologies: React, TypeScript, Tailwind CSS, Framer Motion

- Developed an accessible, open-source UI component library (60+ primitives) with a modern dark-mode design system.
- Implemented fluid micro-interactions via Framer Motion and typed design tokens for consistent developer experience.
- Published as an NPM package with strict TypeScript types and modular architecture for zero runtime overhead.

Experience

Infosys Springboard – Virtual Internship 6.0 Sep 2025 – Dec 2025
MERN Stack Development Trainee

- Engineered **PrepConnect (SkillBridge)**, a full-stack platform connecting volunteers and students with nonprofits and mentors.
- Implemented TypeScript/Express/MongoDB backend for application tracking, listing management, and JWT authentication.

IBM SkillsBuild (Edunet Foundation) & AICTE Jun 2025 – Sep 2025
Web Development & AI Intern

- Developed **TensorWage**, an AI-assisted salary prediction app using Scikit-learn models and a React frontend.
- Built a Study Companion platform with task planning, progress tracking, and interactive focus timers.

Certifications

TypeScript | **JavaScript** – Infosys Springboard • **Frontend Web Development** – IBM SkillsBuild • **Oracle Cloud (OCI) Foundations Associate** – Oracle
